Curriculum Vitae

*Associate-Professor at the University of Orléans, France
(Harmonic Analysis and Applications)*

Positions held

Current position:

Since september 1999 : Associate-Professor (Maître de conférences) in Applied Mathematics at the University of Orléans, France.

Former positions:

First semester 2004–2005 : On sabbatical at CNRS, France.

1998–1999 : Post-doc (with teaching) at University of Orléans, France.

1996–1998 : Tutor at Université d'Orléans, France.

1995–1996 : French National Service in cooperation at Flinders University of Adélaide, Australia.

First semester 1994–1995 : Tutor at Université d'Orléans, France.

Studies

2007: Habilitation in mathematics at the University of d'Orléans, *Contributions à l'analyse harmonique réelle et complexe et à ses applications [Contributions to real and complex harmonic analysis and to its applications]*, defended on july 2, 2007.

1993–1994 et 1995–1998: PhD in mathematics at the University of d'Orléans, *Trois Problèmes d'Analyse Harmonique [Three problems in harmonic analysis]*, supervised by A. Bonami and C. Delarocche-Anantharaman, defended on june 29, 1998.

1992–1993: Masters in Pure Math at University Paris XI-Orsay, École Polytechnique, École Normale Supérieure.

1991–1992: BsC in mathematics at University Paris XI-Orsay, France.

1990–1994: École Normale Supérieure de Cachan, France.

Main research activities

Member of research networks

Current networks :

Since 1998: French GDR *Analyse Pluri-Complexe*, coordinator P. Thomas.

Since 1998: French GDR *Analyse Fonctionnelle et Harmonique*, coordinator J. Esterles, E. M. Ouhabaz. Since 2007: French ANR *Analyse Harmonique pour les Problèmes Inverses*, coordinator L. Baratchart.

Former networks :

2004–2006: French-Hungarian project *Extremal Problems in Fourier Analysis*, coordinators S. Revez (Budapest) and L. Habsieger (Lyon).

2002–2006: EU IHP network *Harmonic Analysis and Related Problems (HARP)*, coordinator A. Bonami (Orléans).

2002–2005: EU IHP network *HYperbolic and Kynetic Equations (HYKE)*, coordinator N. Mauser (Vienna).

1998–2002: EU TMR network *Harmonic Analysis on Euclidean Spaces and their Counterparts in Lie Groups and Homogeneous Spaces*, coordinator P. Sjögren (Göteborg).

Invitations

November 2006: Renyi Institute, Budapest, Hongrie, invited by *M. Matolcsi* (1 week).

September 2006: Université de Wrocław, Pologne, invited by *J. Dziubanski* and *E. Damek* (3 weeks).

Avril 2006: Université Vanderbilt de Nashville, USA, invited by *A. Powell* (1 week).

November 2005: Indian Institute of Technology, Kanpur, India, invited by *S. Madan*, *R. Ramat* et *S. K. Ray* (4 weeks).

September 2005: Renyi Institute, Budapest, Hungary, invited by *M. Matolcsi* and *S. Revez* (10 jours).

February 2005: Universita Autonoma Nationale de Mexico, Cuernavaca, Mexico, invited by *S. Perez-Esteva* (10 days).

November 2004 and January 2005: Université du Missouri, Columbia, USA, invited by *L. Grafakos* and *A. Iosevitch* (6 weeks).

September 2004: Wrocław University, Poland, invited by *J. Dziubanski* and *E. Damek* (2 weeks).

July 2003: Universita Autonoma Nationale de Mexico, Cuernavaca, Mexico, invited by *S. Perez-Esteva* (1 week).

May 2003: National University of Crete in Iraklio, Crete, invited by *M. Kolountzakis* (2 weeks).

March 2003: Wrocław University, Poland, invited by *D. Buraczewski*, *A. Hulanicki* et *E. Damek* (1 mois).

August 2002: National University of Crete in Iraklio, Crete, invited by *M. Kolountzakis* (2 weeks).

June 2002: Autonoma University of Madrid, Espagne, invited by *G. Garrigós* (1 week).

January 2002: Universita Autonoma Nationale de Mexico, Cuernavaca, Mexico, invited by *S. Perez-Esteva* (2 weeks).

March 2001: Wrocław University, Poland, invited by *D. Buraczewski*, *A. Hulanicki* and *E. Damek* (1 month).

August 1999: Chalmers and Göteborg University, Sweden, invited by *M. Roginskaya* and *P. Sjögren* (1 month).

November 1998: Wrocław University, Poland, invited by *A. Hulanicki* et *E. Damek* (1 week).

December 1997: Autonoma University of Barcelona, Spain, invited by *J. Bruna* (1 week).

1995–1996: Flinders University Adelaïde and Cooperative Research Center for Sensor Signal and Information Processing (CSSIP), Australia, invited by *W. Moran* (20 month).

Avril 1994: Flinders University Adelaïde, Australia, invited by *W. Moran* (1 month).

Conference and seminar talks

Invited talks

September 2007: Talk “Some links between uncertainty principles and combinatorics” at the *Second Workshop on Extremal Problems in Fourier Analysis*, Renyi Institute, Budapest, Hungary.

April 2006: Talk “Uncertainty principles for orthonormal bases” at *Mini-workshop on wavelets, frames and operator theory*, Vanderbilt University, Nashville, USA.

March 2006: Talk “Uncertainty principles for orthonormal bases” at the *X-EDP* day, École Polytechnique, Palaiseau, France.

December 2005: Talk “Uncertainty principles for orthonormal bases” at the workshop *Harmonic Analysis and Operator Theory*, ISI Bangalore, India.

October 2005: Talk “A survey on phase retrieval problems” at the workshop *Interfaces entre l’analyse harmonique et la théorie des nombres*, CIRM, Marseille, France.

September 2005: Talk “A survey on phase retrieval problems” at the workshop *Fourier Analysis, Extremal Problems and Approximation*, Renyi Institute, Budapest, Hungary.

Conférences

February 2008: Talk “Positive positive definite functions” at the *Second workshop on Harmonic Analysis and PDE’s*, Merida, Mexico.

June 2007: Talk “Nazarov’s Uncertainty principle in higher dimension” at the conference *Modern Methods in Time-Frequency Analysis*, Ströbl, Austria.

January 2006: Talk “Uncertainty principles for orthonormal bases” at the conference *Harmonic Analysis and Related Problems*, Zakopane, Poland.

June 2005: Talk “Discrete radar ambiguity problems” at the workshop *Non-Orthogonal Expansions and Greedy Algorithms*, Shrödinger Institute, Vienna, Austria.

November 2003: Talk “Maximum regularity of solutions to a second order differential equation on the Siegel upper half-plane” at the workshop *Journées Complexes du Sud*, Carcassonne, France.

June 2003: Talk “Maximum regularity of solutions to a second order differential equation on the Siegel upper half-plane” at the *Workshop on Harmonic Analysis and Partial Differential Equations*, Puerto-Vallarta, Mexico.

December 2001: Talk “Hermite functions and uncertainty principles” at the conference *Gabor 2001*, Shrödinger Institute, Vienna, Autricha.

Juin 2001: Talk “New uncertainty principles for the Fourier transform” at the *Workshop on Fourier Analysis and Convexity*, Milano-Bicocca University, Italie.

January 2001: Talk “New uncertainty principles for the Fourier transform” at the conference *Harmonic Analysis on Homogeneous Real and Complex Manifolds*, Zakopane, Poland.

November 2000: Talk “New uncertainty principles for the Fourier transform” at the workshop *Journées d’Analyse Fonctionnelle et Harmonique*, Université d’Orléans, France.

June 2000: Talk “The discrete radar ambiguity problem” at the *International Workshop on Operator Theory and its Applications*, Université de Bordeaux I, France.

June 1999: Talk “Harmonic functions on classical rank one balls” at the conference *Harmonic Analysis on Homogeneous Real and Complex Manifolds*, Zakopane, Poland.

March 1999: Talk “Zéros de fonctions entières et contre-exemples en théorie des radars” at the workshop *Rencontres d’analyse complexe*, Université de Poitiers, France.

July 1996: Talk “ p -induction on L^p -spaces” at the *40th Australian Mathematical Society Annual Conference*, Flinders University, Adelaïde, Australia.

Posters

August 1998: Poster “Harmonic functions on the real hyperbolic ball” at the conference *Geometric aspects of Fourier and Functional Analysis* (satellite de l’ICM Berlin), Kiel, Germany.

February 1996: Poster “Zero flipping and radar ambiguity functions” at the *CSSIP Techfest*, Adelaïde, Australia.

Seminar talks

Outside France: Flinders University in Adelaïde, Adelaïde University, Barcelona University, Autonoma University of Barcelona, Göteborg University, Wroclaw University, Autonoma University of Mexico (in Mexico and in Cuernavaca), Autonoma f Madrid, National University of Crète (in Iraklio), Missouri University (in Columbia).

In France: Universities of Bordeaux, Lille I, Lyon I, Marseilles III, Nancy I, Orléans, Paris 6, Paris 11-Orsay, Strasbourg, Vannes.

General audience talks:

April 2002: Talk “De l’analyse de Fourier aux ondelettes” (From Fourier Analysis to Wavelets) *Journée des Mathématiques*, IREM Orléans.
